Jacob Owens Design Technologist

jakeostudio@gmail.com | +1 5134006854 | Cincinnati, Ohio | LinkedIn | Portfolio

SUMMARY

Design Technologist who builds high-fidelity, functional prototypes across web and mobile platforms to advance customer-centric product concepts. Combines front-end development in JavaScript, React.js, Next.js, and HTML/CSS with UX prototyping and motion design to translate design vision into working code. Collaborates with designers, product managers, and engineers to drive concepts from idea to implementation. Experienced in responsive and adaptive design, REST API integration, testing and QA, and AI-assisted development workflows using tools like Node.js.

EXPERIENCE

Biro Sales Inc. **Aug 2025 - Feb 2026**
Contract Web Developer | Thermal Labels Division Columbus, Ohio

- Sole developer building a full-stack web application using Next.js and React, architecting frontend component structure and backend API routes to deliver a functional storefront prototype
- Integrated PayPal payment gateway with QuickBooks accounting system via REST APIs, automating order-to-invoice workflows and reducing manual processing
- Built custom admin dashboard with product management interface and GoDataFeed connections, enabling the marketing team to manage catalog content independently
- Deployed on Vercel with Supabase database; presented development progress and prototypes directly to VP and President for stakeholder review and sign-off

Wingman **Dec 2024 - Present**
Design Technologist & Developer | iOS Application Dayton, Ohio

- Built a high-fidelity iOS prototype using SwiftUI in Xcode, integrating multiple LLMs via OpenRouter API to create a customer-centric AI assistant and validate UX concepts through working code
- Designed and iterated on interaction flows, onboarding UX, and gamified assessments grounded in psychometric research, choosing the right level of fidelity at each stage
- Engineered AI personality systems using prompt engineering and model behavior tuning, evaluating technical trade-offs across cloud and local deployment approaches
- Managed full-stack prototype infrastructure including Supabase backend, API token management, and auth flows
- Led branding, visual design, motion mockups, and investor-facing materials through pitch competition and VC bootcamp

Cloverleaf **May 2024 - Jan 2025**
Video & Motion Designer Cincinnati, Ohio

- Produced client testimonial videos and educational social media content, translating product value into short-form visual storytelling
- Developed branded motion assets including animated logo outro adopted across company marketing channels, collaborating with product and marketing teams to align visual design with brand strategy

Mayven Studios **Feb 2023 - Apr 2024**
Contract Web Developer International

- Translated UX/UI designs from Figma into responsive and adaptive web experiences using front-end code, collaborating with designers across multiple agency projects
- Built and iterated on client-facing prototypes, ensuring design specifications were faithfully implemented across device breakpoints

University of Dayton **Apr 2024 - May 2025**
Flyer TV Manager Dayton, Ohio

- Directed ESPN live-stream productions for university athletics, managing real-time switcher operations and live camera calls under fast-paced production constraints

Ligature Studio **Jan 2024 - Apr 2024**
Graphic & Motion Designer Dayton, Ohio

- Designed animated social media content and produced a concert rules video package for Dayton's Levitt Pavilion, applying motion design principles to solve communication challenges

UD Center for Leadership **Aug 2022 - Apr 2023**
Graphic Design Assistant Dayton, Ohio

- Led visual identity for the 2024 professional development campaign across social media, email, and event branding, establishing consistent design patterns across channels

EDUCATION

University of Dayton **Aug 2021- May 2025**
Bachelors of Fine Arts in Graphic Design | Media Communications Minor Dayton, Ohio

Kings High School **Aug 2017 - May 2021**
Digital Media Arts Specialist Kings Mills, Ohio

SKILLS

Front-End & Prototyping: JavaScript, React.js, Next.js, Node.js, HTML, CSS, SwiftUI, Xcode, Responsive & Adaptive Design, Figma, High-Fidelity Prototyping
AI & Technical Systems: LLM Integration, AWS, Model Evaluation & A/B Testing, REST API Frameworks, AI-Assisted Development (Cursor, Kiro), Supabase, Vercel, GitHub, Prompt Engineering, Auth & User Management
Motion & Visual Design: After Effects, Premiere Pro, Photoshop, Illustrator, Motion Graphics, Color Grading, Sound Design, Storyboarding
UX & Product: Interaction Design, UX Prototyping, UX Copywriting, Information Architecture, Payment Integration, Admin Dashboards, Testing & QA

Certifications & Training:
Adobe 2021 US National Champion — ACA Online National Championship
Adobe Certified Associate — 5 Creative Cloud Programs
UDCA 2024 Silver Award — UD Women's History Month
